Preface

(This is not part of the Conditions of Use)

1. This edition replaces the edition effective 1 April 2007.
2. Conditions of Use and airport charges for Stansted Airport Limited are contained in this booklet. The main revisions, effective 1 April 2008, to note are:
 - 2.1. There are increases in the landing charges, departing passenger charges and parking charges.
 - 2.2. An Air Navigation Services charge is now included in the Landing Charge.
 - 2.3. The remote stand rebate which applies to both arriving and departing passengers using remote stands has been increased to GBP 1.97 per passenger.
 - 2.4. The minimum charge on departure has been raised to GBP 115.
3. Details of the conditions of use and airport charges at Heathrow, Gatwick, Southampton and BAA's Scottish airports (Glasgow, Edinburgh and Aberdeen), are available on the BAA internet site at www.baa.com/cou.
4. Navigation services at the airport (specifically aerodrome control and certain approach functions) are provided by National Air Traffic Services (NATS) and up to 31 March 2008 were charged for by NATS directly to airlines. Under a Department for Transport decision published 24 July 2007 these services will now be included in the cost base covered by BAA's airport charges from 1 April 2008 onwards and no separate charges will be made by NATS for these services.

2 Conditions

The use of the airport is subject to the following conditions:

2.1 General

Compliance

- 2.1.1 Compliance with the local flying restrictions and remarks published from time to time in the AD section of the United Kingdom AIP, and
- 2.1.2 Compliance with instructions, orders or directions published from time to time by the airport company which may supplement vary or discharge any of the terms and conditions of use set out herein.

Liability

Neither BAA Limited, nor the airport company, nor their respective servants or agents shall be liable for the loss of or the damage to the aircraft, its parts or accessories or any property contained in the aircraft, occurring while the aircraft is on the airport or is in the course of landing or taking-off at the airport, arising or resulting directly or indirectly from any act, omission, neglect or default on the part of BAA Limited, the airport company or their servants or agents unless done with intent to cause damage or recklessly and with knowledge that damage would probably result. In any event neither BAA Limited nor the airport company nor their respective servants or agents shall be under any liability whatever for any indirect loss and/or expense (including loss of profit) suffered by an operator.

2.2 Operational

Slots

- 2.2.1 No operator shall operate to or from Stansted Airport without first obtaining a slot from Airport Coordination Limited (ACL).
- 2.2.2 If in the opinion of the airport company an operator regularly or intentionally fails to adhere to an allocated slot (either arrival or departure) for reasons which are not beyond its control, then having first given the operator an opportunity to make representations, the airport company may adopt such measures as it deems appropriate to ensure that the operator adheres to its allocated slots, such measures may include the airport company prohibiting the operator or particular services of the operator from the airport for a fixed period of time. The services of an operator prohibited from another airport owned by BAA Limited in accordance with the equivalent provisions of that airport's Conditions of Use shall not without the express permission of the airport company be relocated to the airport.

Use of Chapter 2 aircraft

- 2.2.3 Operators should note that civil subsonic jet aircraft with a take off mass of 34,000kg or more (or with more than 19 passenger seats) operating to the UK are required to be certificated as Chapter 3 or Chapter 4 in accordance with the Aeroplane Noise Regulations 1999. Aircraft not meeting this requirement are prohibited from operating to any UK airport unless granted an exemption by the UK Civil Aviation Authority (see www.caa.co.uk/erg/avpolicy).

Ground handling

- 2.2.4 At Stansted Airport all ground handlers are issued with a licence to operate. This licence contains mandatory performance standards to which the ground handlers must adhere. Further information on ground handling licences is available from the airport company.

Policing

- 2.2.5 Where a flight destination or carrier is identified as being at significant or high risk the operator shall pay a charge as notified by the Managing Director equating to the cost of

any policing cost additional to the services normally provided at the airport for carriers or destinations at lower levels of risk.

Noise supplements

- 2.2.6 At Stansted, aircraft departures which infringe noise thresholds or aircraft of operators that flagrantly or persistently fail to operate in accordance with Noise Preferential Routes (NPR's) prescribed for the airport, both as measured by the noise and track monitoring system operated by the airport company, may be subject to supplements promulgated in directions published by that airport company.

Passengers with reduced mobility

- 2.2.7 Until the date when BAA takes accountability for the PRM assistance service under EU legislation, to be specified in an Airport Notice, the operator or its handling agent shall provide assistance through the terminal building to and from the relevant aircraft to all arriving and departing passengers with reduced mobility or other disability as defined by section 1 of the Disability Discrimination Act 1995, including where requested the provision of a wheelchair service. The cost of providing such a wheelchair service or other assistance is to be absorbed by the operator or its handling agent as an overhead and must not be charged to the passenger requiring the wheelchair service or other assistance at the airport. The operator or its handling agent is not required to provide a wheelchair service or other assistance at any time before the passenger has checked in on the passenger's flight out of the airport nor at any time after the passenger has been assisted to the baggage reclaim hall on the passenger's flight into the airport. The operator will indemnify the airport company and keep the airport company fully indemnified against all actions, claims, proceedings, costs and damages (including all damages or compensation paid by the airport company on the advice of its legal advisers to compromise or settle any claim) and all legal costs or other expenses arising out of any breach of this condition or out of any claim by a third party based on any facts which if substantiated would constitute such a breach.

2.3 Payment

- 2.3.1 The operator shall pay the appropriate charges for landing, taking-off and parking of an aircraft, as set out in the Schedule of Charges. The operator shall also pay for any supplies, services or facilities provided to him or to the aircraft at the airport by or on behalf of the airport company at the charges determined by the airport company. All charges referred to in this paragraph shall accrue on a daily basis and shall become due on the day they were incurred and shall be payable to the airport company on demand and in any event before the aircraft departs from the airport unless otherwise agreed by the airport company (which agreement may be withdrawn at any time at the discretion of the airport company) or unless otherwise provided in the terms for payment included in the invoice for such charges.
- 2.3.2 Payments shall be made without deductions (including taxes or charges). If the applicable law requires any tax or charge to be deducted before payment the amount shall be increased so that the payment made will equal the amount due to the airport company as if no such tax or charge had been imposed.
- 2.3.3 All sums payable to the airport company are exclusive of VAT which shall, where applicable, be paid in addition at the rate in force at the relevant tax point.
- 2.3.4 All sums due which are not paid on the due date shall bear interest from day to day at the annual rate of 3% over the current Barclays Bank plc daily rate from the date when such sums were due until the date of payment (both dates inclusive).
- 2.3.5 Where an aircraft operator has not used the airport in the previous 12 months (as calculated from the date that the operator proposes to commence operations), the Managing Director of the airport company may at his discretion, require a deposit to be lodged with the airport company before flights by that operator commence. Any such deposit shall be paid to the airport company and shall be in such a sum as the Managing Director shall consider to be equivalent to the anticipated charges that the aircraft operator shall incur (based on the anticipated number and type of flight planned) for 3 months of

operations by that operator. Such deposit or the balance then remaining shall be refunded to the operator when 12 months of service have been completed in accordance with these Conditions of Use or when the operator ceases to operate any flights from the airport (whichever shall first occur) subject to the right of the airport company (which is hereby reserved) to set off against any such deposit any appropriate charges that have not been settled in accordance with the above provisions.

- 2.3.6 Under the Civil Aviation Act 1982, the airport company has the power to detain aircraft where default is made in the payment of airport charges. The power relates to aircraft in respect of which the charges were incurred (whether or not they were incurred by the person who is the operator of the aircraft at the time the detention begins) or to any other aircraft of which the person in default is the operator at the time the detention begins.
- 2.3.7 The operator shall not, without the express written consent of the airport company, be entitled in respect of any claim he may have against the airport company or otherwise to make any set off against or deduction from the charges provided for in these conditions. He must pay such charges in full pending resolution of any such claim.
- 2.3.8 Any queries relating to invoices should be raised with the Credit Control Department at the BAA Business Support Centre within 10 days of the invoice date. Contact numbers for the BAA Business Support Centre are shown on our invoices and statements.

3 Airport Charges

3.1 Charge on Landing

- 3.1.1 At Stansted, the relevant charges for the landing and the subsequent take-off of aircraft as set out in the Schedule of Charges are payable.
- 3.1.2 The charge on landing will be assessed and payable on the basis of the Maximum Total Weight Authorised (see paragraph 1.1.5) as recorded by the airport companies on 1 April of each year.

Base charge on landing - Chapter 3 and non - jet aircraft

- 3.1.3 The base charges on landing as set out in the Schedule of Charges, will apply to jet aircraft over 16 metric tonnes, which meet the noise certification standards of ICAO Annex 16 Chapter 3. When applying for these base charges, documents attesting that the aircraft complies with Chapter 3 noise certification standards must be produced. If they are not, the aircraft may be treated as a Chapter 2 aircraft for charging purposes.
- 3.1.4 Non jet aircraft and all aircraft not exceeding 16 metric tonnes will automatically qualify for the base charges and therefore no application need be made under paragraph 3.1.3.

Non chapter 3 aircraft

- 3.1.5 The Chapter 3 base charge on landing, calculated in accordance with the Schedule of Charges, will be increased to three times for aircraft failing to meet Chapter 3 noise certification standards as a minimum or any non certificated aircraft.
- 3.1.6 Application for the base charge on landing or Chapter 2 surcharge, and the relevant documentation, should be sent to.

Finance Director

Chapter 3 minus or Chapter 4 charge

- 3.1.7 This charge will apply to those jet and non-jet aircraft in excess of 16 metric tonnes which,
- 3.1.7.1 on BOTH ARRIVAL AND DEPARTURE, have a Quota Count of 0.25, 0.5 or 1, or are exempt, as described under Section 3 of the London/Stansted Noise Restriction Notice, currently published as a supplement to the UK AIP by the Civil Aviation Authority on behalf of the Department for Transport, or
- 3.1.7.2 were first put into service on or after 1 January 2006 and meet the noise certification standards of ICAO Annex 16 Chapter 4. Documents attesting that the aircraft complies with Chapter 4 noise certification standards must be provided to the airport company.
- 3.1.8 The above supplement is revised twice a year, and until an aircraft type is included in the supplement, the airport company will use its own discretion in classifying the Quota Count of that aircraft type. In the event of this happening, no subsequent retrospective claim for a lower charge on landing will be considered by the airport company.

Chapter 3 high charge

- 3.1.9 Aircraft deemed to be Chapter 3 high aircraft in accordance with the provisions of condition 3.1.10 will be subject to a weight charge on landing of 150% of the Chapter 3 base charge, unless the operator of the aircraft can provide to the airport company satisfactory noise certification data which demonstrates that the aircraft noise performance is 5 or more EPNdB below Chapter 3 certification limits prescribed in Volume 1, Part II, Chapter 3 of Annex 16 to the Convention on International Civil Aviation based on the arithmetic sum of

the differences between certificated levels and the Chapter 3 noise limits at the approach, lateral and flyover points.

3.1.10 Chapter 3 aircraft of the following types will be deemed Chapter 3 high:

AN124	BAC1-11	Boeing 707/720B

Air Navigation Services charge.

3.1.11 The relevant charges for Air Navigation Services (ANS) as set out in the Schedule of Charges are payable.

3.2 Charge on Departing Passengers

3.2.1 The relevant charges for departing passengers as set out in the Schedule of Charges are payable.

Arrivals and departures from remote stands

3.2.2 Where a flight arrives or departs from a stand which has been designated as a remote stand, a rebate to the charge of Terminal Departing Passenger will be allowed as set out in the Schedule of Charges, based on the number of Terminal Arriving Passengers and Terminal Departing Passengers using remote stands. Such rebate will not apply to the extent that it reduces the charges on departing passengers to below the level of the relevant minimum charge on departure set out in the Schedule of Charges.

3.3 Aircraft Parking Charges

3.3.1 The relevant charges for aircraft parking as set out in the Schedule of Charges are payable.

3.3.2 The charges for parking of aircraft at the airport will be assessed and payable on the basis of the Maximum Total Weight Authorised (see paragraph 1.1.5) as recorded by the airport company on 1 April of each year.

3.3.3 Parking charges will be based on the total number of quarter hours or part thereof that an aircraft has been parked on areas designated as airport company parking areas.

3.3.4 These charges will apply whether the aircraft is secured to the ground or to a structure on the airport or is left on the ground unsecured.

3.3.5 Parking charges will accrue immediately after landing subject, at the discretion of the airport company, to a taxi time allowance of 5 minutes.

3.3.6 For an aircraft where the Maximum Total Weight Authorised does not exceed 15 metric tonnes, 24 hours free parking after landing will be allowed.

3.3.7 The operator of the departing flight will be liable for the parking charge. At the airport company's discretion the operator of the arriving flight or the lessor of the relevant aircraft may be invoiced upon evidence of such obligation being received by fax or by email at the BAA Business Support Centre by 0900 the following day. Contact details are:

Email: bsc-traffic_charges@baa.com,

Fax: 01279 668102.

- 3.3.8 The Managing Director of the airport company has discretion to decide in the light of the particular circumstances at the airport to abate or waive the charges set out in the Schedule of Charges in relation to the parking of aircraft at certain times and periods or on certain parts of the airport. In this event, the Finance Director will supply the details of the terms and conditions of the abatement or waiver of the charges on the request of any operator who parks aircraft at the airport and the operator may apply to the Finance Director for these terms and conditions.
- 3.3.9 The Managing Director of the airport company may at any time order an aircraft operator either to move a parked aircraft to another position or remove it from the airport. Failure to comply with the order within the period specified in it will render the operator liable to a special charge, equivalent to eight times the standard parking charges set out in the Schedule of Charges, for every hour or part of an hour during which the aircraft remains in position after the period specified in the order has expired.
- 3.3.10 No abatement or waiver of the parking charges will be granted except in accordance with the terms of paragraph 3.3.8 above and paragraph 4.3.1.

3.4 Minimum Charge on Departure

4.2 Positioning Flights

- 4.2.1 The Managing Director of the airport company has discretion to grant a 100% rebate of the charge on landing of aircraft positioning empty for public transport flights. For this purpose, a public transport flight shall be any flight operated for hire or reward by an aircraft with a Maximum Total Weight Authorised (see paragraph 1.1.5) in excess of 16 metric tonnes or such a flight by a smaller aircraft, where carriage is offered to the public on a regular basis according to a published timetable. This rebate will not be granted on flights resulting from a diversion because of bad weather.
- 4.2.2 The rebate will apply to positioning flights between Stansted and Gatwick or Heathrow airports.
- 4.2.3 Prior written application for permission to make the flight and for the grant of the rebate must be made to the Finance Director of the airport at which the landing is to be made.

4.3 Other Rebates

- 4.3.1 The Managing Director of the airport company has the discretion to abate or waive landing, departing passenger or parking charges for any specified category of traffic and/or when they consider it is in the interest of the airport company to encourage the development of traffic at the airport.
