

Central Section Additional Track – Replacement Footbridge and Rail Overbridge at Turkey Brook

Description

Diversion of footpath adjacent to Turkey Brook and provision of a new footbridge. Widening or replacement of bridge carrying the railway over Turkey Brook.

Key impacts and issues

- The works are likely to be entirely contained within existing Network Rail land.
- Minor, temporary noise impacts possible for adjacent dwellings during construction.
- Site adjacent to Turkey Brook, a tributary of the Lea River.
- Within an Archaeological Priority Area.
- Dwellings in the vicinity of tracks.
- Visual impact of new footbridge.
